

# GREAT STREETS GRAVOIS VISIONING WORKSHOPS

## WHAT MAKES A GREAT STREET?

- » They are attractive and foster a sense of community.
- » They are for everyone; pedestrians, bicyclists, transit riders, and motorists.
- » They are economically vibrant and attract further investment.
- » They are developed collaboratively, with residents, business owners, civic groups, planners, and elected officials all engaged in the process.

Saint Louis County is partnering with East-West Gateway Council of Governments to facilitate a multi-day community workshop to plan for the future of Gravois Road as a Great Street from the city limits of Saint Louis to Mackenzie Road. Your participation in three public events is requested.
